

Accessibility Plan

This plan is a supplement to our Disability Policy and should be read in conjunction with it. The purpose of this plan is to indicate the nature of the 'reasonable adjustments' to our site (17-19 Brookside) to make it more accessible to pupils with a mobility disability. In our Disability Policy various operational adjustments, designed to facilitate access to the curriculum, are described.

Due to the school buildings being Victorian and on several floors, access to some teaching areas could be restricted for those with a physical disability. The following adjustments are ones that we believe could reasonably be made.

Adjustment	Timescale
Wheelchair access to the ground floor of 18/19 Brookside (the Infant and Junior School)	1 month
Wheelchair access to a loo on the ground floor of 18/19 Brookside	3 months
Painting of steps with yellow strip	1 months
Improving exterior lighting at the rear of the building	1 month
Strengthened handrails for all staircases	3 months
